

DM2 Software/DTN Supply Chain Automation Interfaces

DESIGNED FOR:

**Sage
MAS 90
MAS 200**

DTN Interfaces:

- ⊙ Bill of Lading
- ⊙ Credit Card
- ⊙ Supplier Cost
- ⊙ Supplier EFT
- ⊙ Supplier Invoice

DM2 Software - since 1989 DM2 has been developing and supporting back office/ERP systems specifically designed to provide petroleum marketers with the tools they need to automate their operations and maximize profit margins. In partnership with **DTN**, DM2 has taken supply chain management automation to the next level. By adding the following DTN interfaces to your DM2 *Petroleum Insights* back office/ERP system, you can reduce labor costs while improving accuracy by automating routine processes:

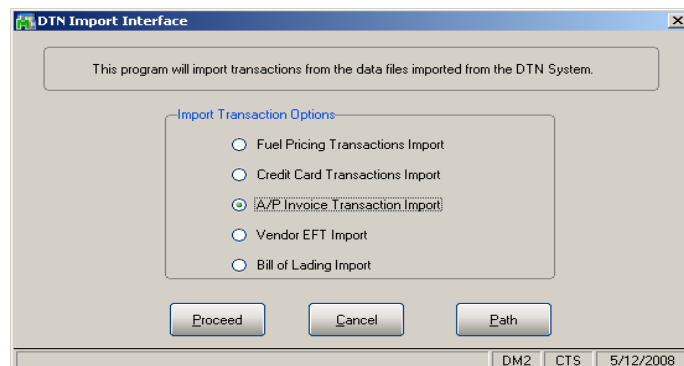

Bill of Lading - the Bill of Lading interface automatically imports Bills of Lading and populates the fields in DM2's Bill of Lading Module. All that's left for you to do is fill in where the product was delivered.

Credit Card - the Credit Card interface gives you the ability to download Dealer Credit Cards and have them posted to their accounts.

Supplier Cost - the Supplier Cost interface lets you import supplier costs directly into your fuel price tables or allows you to bring the costs into a spreadsheet to easily make changes before importing them into your pricing tables. This interface now includes FTP capability to automatically check for price changes every 15 minutes.

Supplier EFT - the Supplier EFT interface imports Supplier EFT information and then automatically matches them up with the correct Supplier Invoice.

Supplier Invoice -- the Supplier Invoice interface imports supplier invoices and automatically matches invoices to your Bills of Ladings. This interface allows you to set-up an approved tolerance. If the match is within tolerance the software would automatically clear the Bill of Lading and set up the invoice for payment. If they are not within tolerance the invoice will appear on a report.

DM2 Software/DTN Supply Chain Automation Interfaces

BENEFITS

Increase Margins

Provides you with the information to optimize your margins by automatically checking for price changes and updating fuel price tables every 15 minutes.

Improve Cash Flow

Automatically download and post Dealer Credit Cards to the correct account and match Supplier EFTs to the correct supplier invoice. Also imports Bill of Ladings and matches supplier invoices to the to the appropriate one and, if within a user selectable tolerance, automatically clears the Bill of Lading and process invoices for payment. Close the loop by automatically e-mailing invoices and drafting customer accounts with DM2's Outbox feature and AR EFT module.

Increase Security and Control

Centrally manage discounts, contracts, and rack prices with rule-based price management tools for special price scenarios and intra-day moves. Tracks all inventory pickups at the rack for greater accountability.

Eliminate Manual Entries

Eliminate manual entries and keying errors by automatically importing Bill of Lading, Dealer Credit Cards, Supplier Costs, Supplier EFTs and Suppliers Invoices information.

Reduce Paperwork

Eliminate the paperwork associated with processing Bills of Lading, Dealer Credit Cards, price changes and Supplier EFTs and invoices.

ABOUT DTN

DTN has been an innovator in the production and delivery of news and information since 1984. They've subsequently grown into one of the most familiar and trusted sources of timely and accurate business information in America.

Every day, DTN delivers a stream of timely information tailored to the specific needs of more than a dozen different markets and segments, including agriculture, refined fuels, commodities and futures trading, public safety, aviation, turf, recreation, construction and transportation.

Content for DTN services is generated in their own newsroom by hundreds of full-time journalists and meteorologists, plus a carefully chosen selection of the sharpest advisors in their respective markets. To ensure the accuracy and reliability of our data, DTN owns and manages fully redundant IT centers and ticker plants. They deliver information through a variety of internet, satellite and direct data feed connections, and they provide customers with highly advanced analysis and integration tools that make smart business decisions easier every day.

BUY SMARTER. SELL SMARTER.

For additional product information, or to arrange for an in-depth demonstration or place an order please contact DM2 Sales at 800.866.5151.

***DTN monthly services required.**

AVAILABILITY:

**MAS 90 or MAS 200
Version 4.05 or later**
